

I-Greenhouse

Mid-term presentation

*OZENDA Thomas, FERREIRA Joffrey, SURIER G.
Aurélien*

What's done

(Working) mockup we have presented during the JPO and the Anniversary

Work-in-progress

Backend things

- Optimizing protocol with IESE
- Finishing and releasing Gateway
- Install LoRa**WAN** server

User-side : views, interactions

- Centralizing Graphana views (creating nice UI)
- Implementing alerts
- Test Jyze (proprietary but powerful!)
- OpenHAB integration
